

## **LEGAL NOTICE**

Where an airline which is currently included in the Union's list deems itself to be in conformity with the necessary technical elements and requirements prescribed by the applicable international safety standards, it may request the Commission to commence the procedure for its removal from the list.

Every effort has been made to verify the exact identity of all airlines included on the Union's list – namely through the inclusion of: the specific letter codes assigned (and unique) to each airline by the ICAO, the State of certification and the air operator certificate (or operating licence) number. Nonetheless, absolute verification has not been possible in all cases owing to a total lack of information surrounding some airlines that might be operating on the border of, or altogether outside, the recognised international aviation regime. It can therefore not be excluded that there might be companies operating in good faith under the same trading name as an airline included on the Union's list.

Commission Regulation (EU) No 452/2014 requires all Third Country Operators to hold a "Part-TCO" authorisation from the European Union Aviation Safety Agency (EASA) prior to undertaking any commercial flight to, from, or within the Union. EASA and the European Commission ensure that the EU Air Safety List and Part-TCO are closely coordinated.

**DISCLAIMER:** The only authentic version of the EU Safety List is the version which is annexed to the latest applicable Commission Implementing Regulation amending Regulation (EC) No 474/2006 as regards the list of air carriers which are banned from operating or are subject to operational restrictions within the Union, as published in the Official Journal of the European Union.
